- The professor is an authority in his field. Excellent delivery and the course materials are easy to understand. He is willing to help students even outside his office hours.
- He is a very clear instructor. He enjoys the subject and conveys his knowledge well.
- The turnaround for grades was exceptional and made it nice throughout the semester to always have grades readily available unlike many other teachers. He was very knowledgeable of the subject and taught the material the best way possible.
- Dr. Gaweesh did a good job teaching this semester. I think the pace of the class was a bit slow, but that is my only issue.

<ul style="list-style-type: none"> <li>• An excellent instructor with presenting all methodologies in very creative way</li> <li>• I will recommend this course to anyone interested in studying traffic operations. i enjoyed the course.</li> <li>• The work load was very reasonable. Just enough material to learn a lot and learn it well. Was not overwhelmed like many classes allowing me to understand what was covered better.</li> <li>• Needs more examples completed by instructor before attempting to complete problem alone. The examples and homework was not representative of exams and focused on problems that were either not on the exam or not worth many points. Problems given on exams that were given large amounts of point were rarely the focus of the class notes or homework.</li> <li>• This course could have been more rigorous for undergrads. I feel like I could've learned more.</li> </ul>
